**GreenClub Annual Report 2023- 24**

**Committee Members -**

**Convenor (GCFC)** - Ms. Shraddha Ghorpade

**Members** - Ms. Vaishali Behere, Ms. Priyanka Baheti, Mr. Nagraj Arabhavi, Mr. Tushar Purkite

**Student Representative** - Ms. Bhagyashree Narune, Mr. Pranav Chavan

**Aim:**

To foster environmental awareness and promote sustainable practices among students and the community.

**Objectives:**

1. Educate students about environmental issues, biodiversity, and conservation through engaging activities.
2. Encourage the adoption of sustainable living practices such as composting and eco-friendly initiatives.
3. Develop practical skills related to environmental stewardship and conservation.
4. Engage the community through outreach programs and collaborative events.
5. Inspire leadership and action in environmental sustainability among students and beyond.

**Report Detail -**

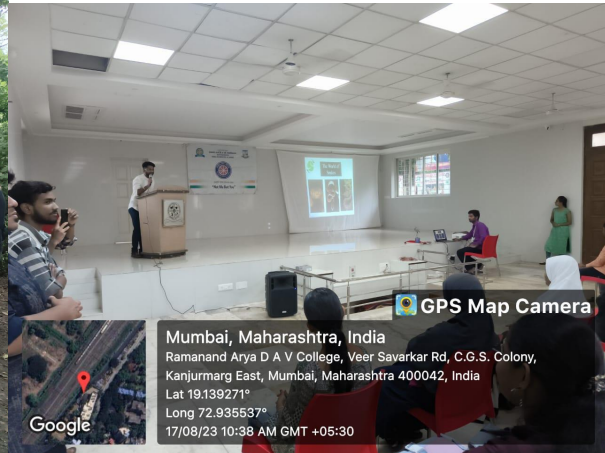

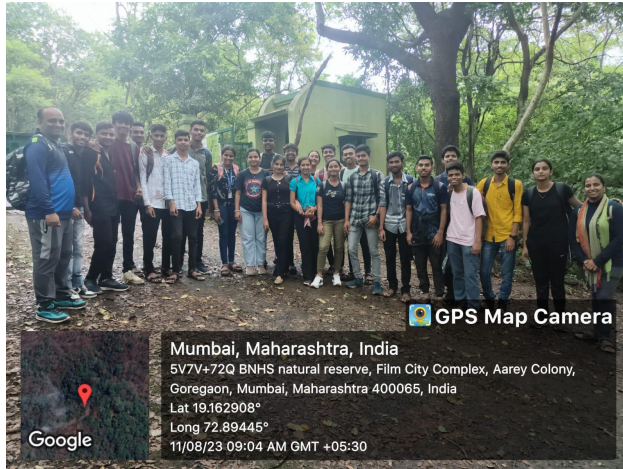

In 2023 - 24, the Green Club of Ramanand Arya D.A.V. College (Autonomous) organized a series of impactful events promoting environmental awareness and sustainability. On August 11, 2023, volunteers explored the CEC Nature Trail, learning about biodiversity and visiting a butterfly garden. This was followed on August 17th by the SlytherinSaga Symposium, which educated participants about snakes' ecological roles and cultural significance.

On October 20, 2023, the Green Club, in collaboration with NSS, conducted a composting workshop led by Ms. Joshi, emphasizing practical skills for sustainable living. This was complemented by a Photography Competition on December 18, 2023, highlighting nature's beauty and environmental conservation efforts.

In 2024, Students visited Lohagarh Fort on January 12 for an educational trip focusing on historical and environmental conservation. The experience underscored the importance of sustainable tourism and career opportunities in related fields.

The pinnacle event was EcoUtopia an intercollegiate event on March 12, 2024, featuring diverse activities like poster presentations, elocution, eco-friendly business idea pitching, a millet recipe contest, reel-making, and a quiz competition on water conservation. Participants showcased innovative solutions and deepened their understanding of sustainability issues, reinforcing the college's commitment to fostering environmental stewardship and inspiring future generations.
